### For the adults - read here!

Why not let the children go on summer camp to idyllic Hudøy in the Oslofjord while you work this summer? Here they can swim, play football, fish for crabs, play in the forest, learn to sail, read books and get home-cooked food. Over 425 children aged 8–13 enjoy themselves on Hudøy at the same time and live at the island's 11 different camps. The children go home with a backpack full of experiences and new friendships!

### #loggpålive W

This year we organize a summer camp on Hudøy for the 106th time. Hudøy is a holiday in the old fashioned way where the mobile phone has been replaced with friendship bonds. Here we log off the tablet and create new memories without them being filtered through social media. We simply say: On Hudøy we log off, so we can log on to life.

### Experienced JURZQ XSV

Our aim is to create good summer memories for children and young people in safe surroundings. We have skilled and committed colleagues whom we recruit from colleges and universities in Norway. Before the children arrive, employees receive first aid and safety training from the management and the health service on the island. In total, over 120 people work to create a holiday the children will never forget.

"There is no job in the world that is better than helping to create good holiday memories for children by allowing them to be children again!"
